WASH & DRY VACUUM CLEANERS

Aquill XTW 15 E

EXTRACTION CLEANING

Aquill produces a jet of nebulized detergent solution at high pressure which dissolves even deeply engrained dirt. The solution is then sucked back into the unit leaving the treated surfaces clean and dry.

DRY VACUUMING

Accessory for the suction function includes dust bag.

WASH & DRY

Aquill guarantees perfect cleaning of any floor when either extraction cleaning or when used as a dry vacuum cleaner due to its powerful motor.

FLOOR CARE

TECHNICAL DATA		
Weight	kg	10
IEC power	W	1300
Max power	W	1500
Rated voltage/Frequency	V~ Hz	230~ 50
Insulation class		II
Vacuum depression	mm-H_20	2400
Use range	m	8
Dust-bag capacity	l	4
Liquid collecting capacity	l	4,5
Detergent tank capacity	l	2,5

XTW 15 E

- Power: 1300/1500 Watt IEC/max.
- Suction power:300 Watt.
- Electronic power regulation.
- 7-STAGE FILTER SYSTEM (99.9% filtration of dust particles bigger than 5 micron), activated carbon and antibacterial filters.
- Automatic cord rewind.
- Full-bag indicator.
- Separate on/off and pump switches with indicator lights.
- Complete range of accessories.
- Front castors, rear wheels with rubber covering.
- Two separate containers for extraction cleaning or dry vacuuming.
- Aquill is the answer to any cleaning need: it is the wash and dry vacuum cleaner that can be used every day due to its handiness.
- Vertical surfaces can washed due to the pump.
